Borg & Overström Totality™

Driven by a relentless pursuit of excellence, Borg & Overström Totality™ is a research and development methodology for the advancement of hygiene, innovation and technology in refreshment systems.

Ultra-violet sterilising system
For added hygiene confidence, appliances can be fitted with Viovand™ – an ultra-violet sterilisation process that reduces water-born bacteria.

World-class filtration
For the ultimate drinking experience, Borg & Overström appliances can be pre-fitted with a 3M filter to reduce sediment, chlorine, odours and scale.

Laboratory certified 99.999% bacteria-free
Every Borg & Overström appliance undergoes an anti-microbial, antipathogen, sanitising procedure. The reassurance of hygienically safe appliances is provided by the unique bacteria-eliminating process, Sterizen™.

Biofilm, limescale and impact resistant epoxy resin panel finish
Providing an increased level of hygiene and longevity, Fynil™ is a scratch and impact resistant epoxy-resin surface finish - effectively resisting biofilm development and limescale cohesion.

Beautifully refreshing.

B4 Models	Silver	White	Black

Additions for B4

Printed paper cups

Environmentally-friendly disposable cups designed to fit Borg & Overström cup dispensers perfectly.

Deep-sparkle CO² refills

Can be disposed via standard steel recycling or general waste. Requires CO² regulator with gauge.

Sanitisation kit

Six monthly sanitising cycles ensure appliances function at the optimum hygiene levels.

Waste kit overflow sensor

Featuring an audible high-water level alarm to prevent the base cabinet waste tank from overflowing. Included as standard on floorstanding models.

Leak detection kit

Featuring a moisture sensor that shuts the water supply in the unlikely event of a leak.

Install kit with 3M filter

Install appliances simply and effectively in a wide range of applications. Complete with a 3M filter.

Ultra-violet filter kit

Complete ViovandTM filter kit to assist in water purification and removal of unwanted micro-organisms.

Rear cover

Tamper-proof rear cover anchors the appliance to the wall and protects plumbing and electrical connections. Ideal for public areas.

Beautifully refreshing.
